Our products are provided "as is" and "as available." To the maximum extent permitted by law, we disclaim all representations and warranties of any kind, whether express, implied, or statutory, including but not limited to warranties of merchantability, fitness for a particular purpose, and non-infringement. You acknowledge and agree that your use of our products is entirely at your own risk. We do not guarantee that access to our products will be continuous or uninterrupted, timely, or secure. We also do not guarantee that the information provided through our products is accurate, reliable, complete, or up-to-date, or that it is free from errors, defects, viruses, or other harmful components. We do not warrant any advice, information, or statements provided by us regarding our products. We also do not warrant or assume any responsibility for third-party advertisements, offers, or statements regarding our products.

5.2 Risk

By accessing and using our products, you acknowledge that you are financially and technically sophisticated enough to understand the inherent risks associated with using crypto and blockchain-based systems. You further acknowledge that you possess working knowledge of the use and complexities of Ethereum (ETH), stablecoins, and other digital tokens, including those following the Ethereum token standard (ERC-20).

You acknowledge that the market for these digital assets is in its early stages and highly volatile due to risk factors including adoption, speculation, technology, security, and regulation. You also understand that anyone can create tokens, including counterfeit versions of existing tokens or tokens falsely claiming to represent projects, and that you must bear the risk of trading such tokens erroneously. You further understand that so-called stablecoins may not be as stable as claimed, may lack full or adequate collateral, and may be subject to panic or runs.

You further understand that smart contract transactions are automatically executed and settled, and blockchain-based transactions cannot be reversed once confirmed. You acknowledge that transaction costs and speeds with blockchain systems like Ethereum can be highly volatile and may increase significantly at any time. You also acknowledge the risks associated with using expert mode, which may result in significant price declines and high transaction costs.

If you act as a liquidity provider through this product, you understand that the value of your digital assets may be partially or entirely lost during provisioning due to price fluctuations of tokens in the trading pair or liquidity pool.

Finally, you acknowledge that we neither create, own, nor operate any cross-chain bridges and make no representations or warranties regarding their safety or soundness.

In summary, you acknowledge that we are not responsible for these variables or risks, do not own or control the protocols, and cannot be held liable for any losses incurred while using our products. By accessing or using the interface to interact with the protocols, you agree to assume full responsibility for all associated risks.

5.3 Prohibition of Investment Advice

We may provide information regarding tokens related to our products. The provision of such information does not constitute a solicitation to trade in these tokens, nor is it intended to induce purchases based

on the information provided. All information provided through our products is for informational purposes only and should not be construed as a recommendation that any specific token is a safe or suitable investment.

You should not take or refrain from taking any action based on information provided in our product. By providing token information for your convenience, we do not make any investment recommendations or express opinions regarding the merits of any transaction or opportunity. You are solely responsible for evaluating whether any investment, strategy, or related transaction is suitable for you, considering your personal investment objectives, financial situation, and risk tolerance.

5.4 External Sales and Activities

The Company solely provides the platform and application services. The Company is not related in any way to external sales teams, marketing groups, third-party promotional activities, investment solicitations, or product sales conducted outside the application. The Company shall bear no liability for any agreements, damages, or disputes arising from such external activities.

6. Indemnification

You agree to indemnify, defend, and hold harmless the Company, each of its officers, directors, employees, contractors, agents, service providers, licensors, and representatives (collectively, the "Company Parties") from and against any and all claims, damages, obligations, losses, liabilities, costs, and expenses (including reasonable attorneys' fees) arising out of or in connection with: (a) your access to and use of our Products; (b) any breach of any term or condition of this Agreement, any third-party rights, or any applicable laws, rules, or regulations; (c) any access to or use of our Products by any party using devices or accounts owned or controlled by you or with your assistance.

You also agree to indemnify the Company Parties for disputes between you and (i) other users of the Products or (ii) your customers or users. We will notify you of such claims, lawsuits, or proceedings. We reserve the right to assume the exclusive defense and control of any matter subject to indemnification under this Section, and you agree to cooperate with our reasonable requests in supporting our defense of such matter. No claim against any Company Party may be settled or compromised without our prior written consent.

7. Limitation of Liability

Under no circumstances shall either party be liable to you for any indirect, punitive, incidental, special, consequential, or exemplary damages. This includes, but is not limited to, damages for loss of profits, goodwill, use, data, or other intangible assets arising out of the access to or use of, or inability to access or use, the product. We shall not be liable for any damages, losses, or injuries arising from hacking, tampering, or other unauthorized access or use of the Product or the information contained therein. This applies regardless of whether the damages are based on contract, tort, negligence, strict liability, or otherwise, and even if an authorized representative of the Company was notified of, knew of, should have known of, or knew about the possibility of such damages.

We are not liable for: (A) errors, mistakes, or inaccuracies in the content; (B) personal injury or property damage of any nature resulting from your access to or use of the Product; (C) unauthorized access to or use of our secure servers or databases under our control, or the use of information or data stored therein; (D) interruption or discontinuation of any features related to the Product; (E) bugs, viruses, Trojan horses, or similar issues transmitted to or through the Product; (F) loss or damage resulting from the use of any content provided through the Product; (F) errors or omissions in any content provided through the Product; (G) defamation, assault, or tortious acts by third parties.

We shall not be liable to you or any third party for any claims or damages arising from any payment or transaction made using our products, or any other payment or transaction conducted through our products.

We make no warranties or representations, express or implied, regarding any linked third-party services, the third parties that own or operate them, the information they contain, the assets or products or

services available through them, or their suitability, privacy, or security. You acknowledge that you are solely responsible and assume all risks arising from the use of any third-party services, websites, applications, or resources. In no event shall we be liable for any damages related to software, products, services, or information provided by third parties and accessed through our products.

In no event shall our total liability for all damages exceed one hundred dollars (\$100.00 USD) or the equivalent in local currency, whichever is greater, depending on the jurisdiction.

The foregoing disclaimer shall not apply where prohibited by law.

8. Class Action Waiver

To the fullest extent permitted by applicable law, you and the Company agree that any dispute, claim, or controversy arising out of or relating to this Agreement or the use of the Products shall be resolved on an individual basis only, and not as a plaintiff or class member in any purported class, collective, representative, or consolidated action.

You and the Company expressly waive any right to bring, participate in, or otherwise be involved in any class, collective, representative, or consolidated proceeding.

Arbitration or litigation of any claim shall proceed solely on an individual basis.

If a claim cannot legally be waived or required to proceed individually, then that portion of the claim must be brought in court, and the remaining portion shall continue in arbitration.

This provision shall survive the termination of this Agreement.
